DETAILED ACTION

Allowable Subject Matter

1. Claims 1-34 are allowed.
2. The following is an examiner's statement of reasons for allowance:

U.S. Patent No. 5,724,591 to Hara et al. is the reference closest to the claimed invention. Hara et al. disclose the power demand monitoring unit comprising a wattmeter for measuring the total power demand of all the processor units (or an ammeter for measuring the total current demand of all the processor units or a voltmeter for measuring a voltage occurring across an existing minute resistor which is inserted in a power supply line to measure the total current demand of all processor units); a memory unit for storing both of the total power demand of all the processor units when the operation clocks of all the processor units are stopped and a predetermined power variation; a calculation circuit for subtracting, from the total power demand of all the processor units, the total power demand of all the processor units when the operation clocks of all the processor units are stopped; a calculation circuit for judging whether the subtraction result (value) is larger than the predetermined power variation; and a circuit for outputting to the clock control unit a clock stop instruction corresponding to a calculation result. However, Hara et al. do not teach a method for measuring integrated circuit processor power demand comprising: calibrating one or more voltage controlled oscillators (VCOs) for use as ammeters; calibrating a calibration current source, wherein the calibration current source draws current through an inherent resistance; calculating the inherent resistance; and calculating the processor power demand using a voltage that is measured across the

inherent resistance; and including all of the other limitations in the respective independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
